25X1	8.	A large German ammunition depot which was later demolished by the Soviets was located in the woods southeast of Drewin until 1945. At the beginning of August, large quantities of gasoline and oil were stored there by the Soviets.	25X1
25X1	9.	In mid-August, a Soviet fuel depot was located on the premises of the Deru-Napht at Handelshafen in Magdeburg-Neustadt. The depot was bounded by Saele Strasse, Zwischenwerk Strasse, Nonnewer er and Klosterkemp. Repair work at the depot was still carried out by the Verwaltung der Auslandischen Mineraloelgesellschaften (Administration for Foreign Mineral Oil ompanies) at 171 Friedrichstrasse, Berlin. The depot was occupied by Soviet Unit	
25X1		Of not more than about 50 soldiers and commanded by Captain (Adm) Zamoillov (Inu). As red-bordered black, black-bordered black and black-bordered red epaulets were observed,	
25X1		guard duty was performed by details detached by various units. Fuel containers at the depot were said to have included 3 containers which were 10 meters high and had 8 meters in diameter, 5 containers which were 8 meters high and had 6 meters in diameter, 6 containers which were 6 meters high and had 4 meters in diameter and several piles of 200-liter drums and about 230 drums each of about 1,000 liters. Fuel was delivered exclusively
